The Iron and Steel Workers.

Philadelphia, 14.—The Amalgamated
Iron Workers, at the afternoon session,
read the report of the committee on con-
stitution and general laws, of which L.
J. Milligan, of Ironton, O., is chairman.
Several important matters relating to a
change of existing laws of the association
were held under consideration. Each
branch of business was acted upon by the
convention separately, and about the first
proposition that came up was whether
iron men should withdraw from the steel
workers and organize by themselves.
The proposition was negatived by unani-
mous vote. A motion to fix the date of
the next convention for four years instead
of one did not prevail. The proposed with-
drawal from the steel workers having
failed to receive support, the title of the
association will remain as hitherto. The
plan to make each sub-branch support its
own men when they are on a strike also
lacked support. The paramount object of
the association is union and concentration.
An attempt to separate the executive
functions of the body and divide them
into small portions would fall short of
the prime object for which the amalga-
mated association was organized, and
which all trade unions have ultimately
in view. The proposition was therefore
a dead letter. There is to be no effort
made to have men idle for sixty days
during July and August, or to incorpo-
rate this project into the standing laws of
the association. For their union interest,
members will seek to curtail work dur-
ing the summer season, in order to pre-
vent overstocking the market with fish-
hired iron material. The afternoon
session was adjourned to a later hour, and
when adjournment was reached the com-
mittee had not finished the report, and will
resume to-morrow morning. Among
the important objects to be brought
up is the question of strike benefits.
Another plan to be acted upon is that of
appointing a committee of members to
make quarterly reports on the situation
and condition of the iron trade. Presi-
dent Jarrett speaking of the plan to re-
quire each sub-body to support its own
strikers, said the rules of the association
in this respect would be in the nature
governing the entire organization. In
connection with the report that some of
the men out at Bethlehem had returned to
work on Monday, Jarrett said there was
nothing to prevent them. The association
directs its members to go to work where
furnaces are still in operation, and there
is no reason why they should stay out.
He says all members of the Amalgamated
Association employed at Bethlehem are
at liberty to return to work if they
choose.

The President.

Camp Bishop, Fork of Wind river,
Wyo., 14, via Fort Washakie, Wyo, 15.
—The President and party are encamped
at the Forks of Wind river, upon the
same ground occupied last year by Gen-
eral Sheridan. The camp was then
named Camp Bishop, in honor of Mr.
H. B. Bishop, of New York, who was a
member of the General's party, and the
name has been retained for the present
camp, here we remain to-day, for the
double purpose of affording an oppor-
tunity for the various members of the
party to hunt and fish and to rearrange
the pack goods. This is our supply camp
whence we have to take on the pack ra-
tions and forage enough to last through
to the park. At the present moment,
while our correspondent is writing this
dispatch, all of the members of the party
have gone out either hunting or fishing.
The President, who is in fine health and
spirits, has gone on horseback with Gen-
eral Sheridan about three miles up the
main fork of Wind river, wrongly called
by the people of this country, De Noir
creek, where last evening the President
caught several fine trout. The march,
several miles from Camp Stager to this
point, was on the road through the
beautiful scenery of the upper Wind
river, where are gorgeously colored
and fastidiously shaped mountains,
attended with those which are covered
with grassy slopes and timbered ravines.
The weather was delightful and the
march was thoroughly enjoyed by
everybody. Three antelope, a bear,
several Richardson grouse, and a slow
rabbit were brought into camp last eve-
ning by the hunters of the party, so there
is at present no immediate danger of
starvation for anybody. The results of
to-day's sport will have to remain over
for to-morrow's chronicle.

The Creek Agreement.

Washington, 15.—The Indian commis-
sioners appointed to investigate the re-
cent trouble in the Creek nation and
settle the affairs of that country, have
made an agreement signed by twenty-five
chiefs of the Creek nation. The agreement
sets forth unconditional amnesty, and
pardon for all aged criminals for offenses
committed prior to the present date as
provided by the act of the national coun-
cil in 1882; it being that any cases origi-
nating during the recent trouble shall be
submitted to the Indian agent whose de-
cision shall be final; the Creek
nation counsel to appoint a com-
missioner representing both parties to whom
shall be referred, with power to audit and
recommend payment of claims for prop-
erty unlawfully seized and destroyed
during the late disturbance; that all
parties participate in the coming election
and abide by the result; that United
States troops within the Creek country
be stationed in one camp, A. K. Munge
to maintain peace during such period as
the colonial commanding and the Indian
agent may deem such military occupancy
necessary. The document is duly signed
by the chiefs and government officials.

Mexico and Germany.

Mexico, via Galveston, 15.—The text
of the treaty of commerce and amity
between Mexico and Germany is pub-
lished. This treaty contains the most
favored nation clause; Germans to pay
no taxes not levied on Mexicans; be ex-
empt from military service and from
contributions in lieu thereof; also from
forced loans.

HOSTETTER'S

Hostetter's Stomach Bitters, by
increasing vital power, and render-
ing the physical functions regular
and active, keeps the system in
good working order, and protects it
against disease. For constipation,
dyspepsia and liver complaint, nerv-
ousness, kidney and rheumatic al-
iments, it is invaluable, and it affords
a sure defence against malarial
fevers, besides removing all traces
of such disease from the system.

HAVING JUST RETURNED FROM
Europe, offers his services to the
citizens of Salt Lake and vicinity. He
has had twenty-five years' ex-
perience in the special treatment of
all Venereal, Sexual and Chronic Dis-
eases, and guarantees to cure all Urinary
Diseases, Syphilis or Mercurial Affec-
tions of the Throat, Skin or Bones,
Nervous Debility, Impotency and
Lost Manhood, the effects of which are
various, maddening and destructive to
both body and mind, and unless cured
will terminate fatally. The presence of
the disease causes a continual con-
sciousness of a slow and gradual de-
cay of all the power of body
and mind with loss of manly
power and vigor, defective memory,
heart affections, loss of sight, noises in
the head and ears, confusion of ideas,
aversion to society, excessive prostration,
trembling of the hands and limbs, con-
sumption, marasmus and ultimate de-
rangement of the mind. This will power
becomes so weak that the person seems to
lose control of himself, and cannot
look one square in the face. It also
causes Dyspepsia and Indigestion with
